

E-TEOR FACILITY UPGRADED

Panaji: October 9, 2018

Asvina 17, 1940

The Government has launched e-teor web based application on December 19, 2017 to facilitate general public, officers and other authorities to verify the birth records pertaining to the year 1914 to 1970.

Certain measures have been undertaken by the department to smoothen the process. The e-teor application will be soon made exclusively on online basis to avoid any physical touch and long standing queues before the offices. Similarly infrastructure will be stepped up to meet the requirements of online requests. Dedicated team in one taluka will be working for e-teors. Efforts would be made to update the records after digitization.

As a major step to remedy the situation of destroyed and spoilt records, Government has designated officers under the Goa Reconstruction of Records and Registers Act, 2005. Any applicant is now able to fill up the prescribed form for Reconstruction of destroyed and spoilt records and submit it to the concerned Sub-Registrar for processing the same.
