The Inspector General, Prison has informed that video clips getting circulated on social media pertaining to some prisoners within jail premises are apparently picturized few months back and circulated now.

It may be informed that few newspapers have also carried out some press articles expressing concern about the safety and security of the prisons. The prison administration has taken due cognizance of the said clips and news articles. A detail enquiry has been initiated in the matter including recording of the statement of few prisoners, as many of the prisoners seen in the video have been released by concerned Court on regular bail and decision about such prisoners is likely to be taken soon.
