

Pradhan Mantri Gramin Digital Sakshatra Abhiyan (PMGDISHA)

- PMGDISHA aims to provide quality technical and digital training- both theoretically and practically- to the large number of youths from the backward or rural areas to make them equally digitally educated
- It has a network of helping hands who work together to provide to the underprivileged sections of the society, to spread digital empowerment amongst marginalised communities and Panchayati constituencies, and to educate at least one person from each authorised household.
- The target for Goa is to digitally literate 40000 citizens under this scheme.
- As of now there are 46 registered centres in Goa.
- Official communication regarding the extension of the scheme is awaited from Government of India.
