### C I R C U L A R

More than 100 countries across the world have now reported cases of COVID-19. People traveling to these countries or people who have travelled abroad might come in contact with people affected with COVID-19 during their stay or even while in transit at the airports. Within these countries, few countries have reported very large number of cases and deaths, putting passengers from these countries at higher risk of infection. Travel Advisories are being issued by Ministry of Health and Family Welfare from time to time.

Further, many countries are enforcing travel restrictions, which may disrupt the travel plans of people who are transiting multiple airports and could even result in them getting stranded mid-way.

Therefore, taking into consideration the advisories issued by the Government of India and the announcement made by the Hon'ble Prime Minister of India for all the countrymen to avoid non-essential travel, it is advised to avoid non-essential travels to any of the foreign Countries for vacation, tour, conferences, etc., so as to avoid risk of infection of COVID-19 and the resultant quarantine for a minimum of 14 days on their arrival back in India.

If any essential travel is to be undertaken, they should compulsorily follow the Consolidated Travel Advisories issued by the Ministry of Health and Family Welfare, Government of India, from time to time.
