

Department of Oral & Maxillofacial Surgery

The Department of Oral & Maxillofacial Surgery in Goa Dental College has a separate OMFS clinic, implantology clinic and exodontia. In exodontia the undergraduates are trained in basic extraction procedures. In the Minor OMFS clinic all minor surgical procedures under local anaesthesia are performed. The dept also has a exclusive implantology clinic where placement of dental implants and preprosthetic surgical procedures are routinely performed.

The Dept of Oral & Maxillofacial Surgery has its presence in the Goa Medical College where all the emergency and trauma services are provided to the patients having Maxillofacial problems. In addition Department has 20bedded in-patient ward (138) and carries out all major surgical procedures in Goa Medical College.

- Professor: Dr. Francis Akkara
- Asst. Professor: Dr. Praveen Satish Kumar
- Asst. Professor: Dr. Omkar Shetye
- Asst. Professor: Dr. Saurabh Kamat
- Lecturer: Dr. Pooja N. Mandrekar
- Lecturer: Dr. Edlyn Rodrigues
- Lecturer: Dr. Rakshit Khandeparker
- Lecturer: Dr. Rahul Kamat
- Senior resident: Dr. Shreyas Naik
- Senior resident: Dr. Neha Chodankar
- Senior resident: Dr. Nadia Fernandes
- Senior resident: Dr. Sneha Rathee
- Senior resident: Dr. Archana Sen

Non Teaching Staff

- Staff Nurse: Elsa Iva Joao
- Staff Nurse: Steffi Catarina Pereira
- Staff Nurse: Vaijayanti Teli
- Staff Nurse: Vandana Mandrekar
- Staff Nurse: Siddhi S Parab
- Staff Nurse: Vijayta Mandrekar
- Staff Nurse: Clency Fernandes
- Staff Nurse: Media Almeida

- Staff Nurse: Seema Ganpat Naik
- Staff Nurse: Rahul A. Virnodkar
- Staff Nurse: Vaishali Agarwadekar
- Staff Nurse: Utkarsha V. Kamat
- Staff Nurse: Pratiksha P. Naik
- Staff Nurse: Divya D. Shetgaonkar
- Staff Nurse: Deu B. Gawas
- Staff Nurse: Karishma K. Ugvekar
- Staff Nurse: Sonam B. Gawas
- Staff Nurse: Sushma C. Sawant
- Staff Nurse: Sunita B. Jangli
- Staff Nurse: Swati M. Naik
- Staff Nurse: Divya D. Dabale
- Staff Nurse: Priyanka N. Jalmi
- Staff Nurse: Trupti T. Velingkar
- Staff Nurse: Sonali Kumari
- Staff Nurse: Archana V. Gurao
- Staff Nurse: Hyacinta R. Menino Fernandes
- Staff Nurse: Bharti V. Humane
- Staff Nurse: Sneha S. Rawal
- Staff Nurse: Vandana Mandrekar
- Lab Assistant: Mrs. Deepashree Chatim

- Attendant: Mr. Nitin Bhomkar

Highlights

The Department of Oral and Maxillofacial Surgery deals with the diagnosis and treatment of patients with diseases affecting the mouth, jaws, face and neck.

Types of Treatments

Procedures undertaken by the department include:

- Surgical treatment of facial injuries—complex cranio facial fractures, fractures of the lowerjaw, upperjaw, cheekbone, nose, and orbit (sometimes all of these together) and soft tissue injuries of the mouth, face and neck
- Removal of head and neck benign and malignant tumors.
- Reconstructive surgery
- Dental Implants and bone grafting for prosthetic rehabilitation of Jaws
- Removal of impacted teeth and complex buried dental roots
- Removal of jaw tumors and cysts
- Cosmetic surgery temporomandibular (jaw) joint surgery
- Salivary gland surgery – for benign and malignant lesions
- Surgical treatment of cleft lip and palate and other congenital facial deformities

Academics

Intake of Undergraduate students: 50 per year Intake of Postgraduate students: 3 per year Passing percentage in the last 5years: 100%

Placement of Postgraduate students (Last5Years):

- Teaching Positions- 7
- Practice- 3

Number of scientific publications (2023-2024): 12
