Notification

34/10/2012-Mines/1748

In terms of Rule 82 (2) of the Goa Minor Mineral Concession Rules, 1985 and amendments thereto the Government hereby specifies the amount to be paid towards the 'Reclamation and Rehabilitation Fund' by the quarrying lease holder as under based on the quantum of extraction of minor mineral as permitted under the Environmental Clearance granted by SEIAA.

The fund amount for the first year shall be as under:

A. Laterite Stones/Murrum/Laterite--Rubbles/Brick earth:

i) Volume of extraction upto 2500m^3/annum — Rs. 25,000/-

ii) Volume of extraction above 2500m^3 upto 5000m^3/annum — Rs. 50,000/-

iii) Volume of extraction above 5000m^3 upto 10,000m^3/annum — Rs. 1,00,000/-

iv) Volume of extraction above 10,000m^3 upto 20,000m^3/annum — Rs. 2,00,000/-

v) Volume of extraction above 20,000m^3/ /annum — Rs. 4,00,000/-

The quarry shall be inspected annually from the date of grant of lease and the amount towards reclamation and rehabilitation shall be calculated as under:

Amount = Volume excavated in m3 X Existing GSR Rate of Murrum X 1.3

B. Basalt Stones:

For Basalt stones the amount to be deposited in the Reclamation and Rehabilitation fund shall be Three times that of Laterite stones.

In case it is found that at the end of the quarrying lease period the quarrying lease holder has carried out reclamation measures satisfactorily and as per the Final Quarrying Closure Plan, then the amount deposited in the "Reclamation and Rehabilitation Fund" shall be refunded accordingly.

This issues with the approval of the Government of Goa.

Prasanna Acharya, Director & ex officio Joint Secretary (Mines & Geology).

Panaji, 16th September, 2013.
