Department of Information Technology, Electronics and Communications
Government of Goa
2nd Floor, IT Hub,
Althino, Tiswadi, Goa – 403001 India

No. 4(20)/DITEC/2025/Goa Online Misc/Vol II/2452 Dated: 06/02/2026

CIRCULAR

The **Department of Information Technology, Electronics & Communications (DITE&C)** acts as a **Nodal Department for planning, promotion, and implementation of Information Technology, Electronics, and Digital Governance initiatives in Goa.**

DITE&C is responsible for coordination and implementation of various national and state-level digital initiatives, such as DigiLocker, MyScheme, UMANG, API Setu, etc., and for ensuring compliance with the guidelines, act and policy issued by the Ministry of Electronics and Information Technology (MeitY), Government of India, across all IT/ITES projects of the State Government.

It has been observed that various Government Departments / Autonomous Bodies / Public Sector Undertakings (PSUs) undertake ICT-related projects, including development of applications, websites, portals, and digital services, and approach this Department at a later stage for technical advice, No Objection Certificate (NOC), and examination of financial reasonability.

In this context, it is proposed that all Government Departments / PSUs / Autonomous Bodies may be advised to intimate DITE&C at the initial stage while planning any IT/ICT project and to seek the necessary technical vetting and NOC during the project conceptualisation phase. This would enable DITE&C to provide timely guidance and ensure compliance with applicable technical requirements and MeitY-approved mandates.

Yours faithfully,

(Kabir K. Shirgaonkar)
Director (ITE&C)

Copy to:

- All Government Departments / Offices / PSUs / Autonomous Bodies – for information and necessary action.
