GOA ROAD SAFETY POLICY 2025

1. Preamble

The Goa Road Safety Policy, 2025 has been formulated in response to the growing challenges of road safety in the state. As of September, 2024, Goa's vehicle population has reached 13.23 lakh, with 8.69 lakh two-wheelers, growing at an annual rate of 17%. With the rapid increase in vehicular traffic in the state, the incidents of road accidents have also seen a rise in the past few years. In the year 2023-24, over 2,682 accidents were reported, resulting in 286 fatalities. This rapid increase necessitates a comprehensive, technology-driven approach to ensure safer roads, roadworthy vehicles, well-trained drivers, effective enforcement, and accident mitigation measures.

This policy is aligned with the Hon'ble Supreme Court Committee on Road Safety (SCCoRS) directives, the Government of India's Road Safety Policy, and the objectives of the UN Decade of Action for Road Safety (2021-2030), which targets a 50% reduction in road fatalities and serious injuries by 2030.

By leveraging automation, artificial intelligence, data analytics and enhanced community participation, the Goa Road Safety Policy 2025 aims to augmentmonitoring, compliance, and accident prevention to create a safer, more efficient and sustainable road transport ecosystem.
